

Missouri Agricultural Prices

Released February 27, 2015

The January Prices Received Index (Agricultural Production), at 99, based on 2011=100, decreased 2 points (2.0 percent) from December. At 83, the January Crop Production Index is unchanged. At 123, the Livestock Production Index decreased 4 points (3.2 percent). Producers received lower prices for milk, hogs and calves and higher prices for lettuce, broilers and broccoli. In addition to prices, the indexes are impacted by the five-year average monthly mix of commodities producers market. Increased monthly movement of soybeans, cattle, and lettuce offset the decreased broiler, cotton, and egg marketings.

Prices Received Indexes – United States: January 2015 with Comparisons

Index	2011 Base		
	Jan 2014	Dec 2014	Jan 2015
